

97 cents of every dollar played comes back to Oregon.

When you play Oregon Lottery® games, whether you win or not, Oregon wins each and every time you play. It's one of the key contributors to Oregon's economy. Money that goes to jobs, schools, parks and watersheds. But most importantly, money that doesn't go anywhere at all. It stays right here. More than half a billion dollars in profits moves through Oregon's economy every year, supporting projects big and small. Which keeps Oregon ... well, Oregon.
