Lucky#Lines

A tic-tac-toe style game that's fun and easy to play!

Ticket cost: \$2 per game

Drawings: Daily at 6:00 PM PT

Jackpots: Rolling jackpots start at \$10,000

How It Works

You win by matching your numbers to those drawn by the Lottery everyday.

How To Play

Play quick pick by asking the Lottery retailer for a Lucky Lines quick pick ticket and your numbers will be drawn randomly.

OR

Choose your own numbers by picking up a Lucky Lines game slip from a Lottery retailer and filling it out:

- 1 Choose how many games you want to play. Mark one of the following boxes on the game slip:
1, 2, 3, 4, 5, 6, 7, 14
- 2 Multiply \$2 (the cost per game) by the number of games you want to play and get the total ticket cost. Mark your selection.
- 3 Pick one of four numbers from each of the available eight squares.
- 4 Give your completed game slip to the retailer and pay for your game. Whether you filled out a game slip or asked for a Quick Pick, you will then receive a ticket.

Play Consecutive Games

You have the option to play your numbers in advance. Just fill out a game slip and mark how many consecutive games you'd like to play.
